Turnaround Times	Turnaround times vary depending on the type of test, specimen requirements, testing methodology, and whether testing is performed on site or referred to another laboratory. The following are general guidelines and are not guarantees of result availability: • At the main laboratory for testing performed on site, all STAT testing is completed within 1 hour; routine testing is completed within 24 hours. Anatomic testing is routinely completed within two days. Microbiology testing can take up to a week for results. Turnaround times for referred testing vary by test and reference laboratory and may range from several days to longer than one week.

Froedtert South Laboratory
9555 76th St
Pleasant Prairie, WI 53158

	• <i>At the Somers laboratory for testing performed on site, STAT testing is completed within 1 hr.; routine testing is completed within 24 hours.</i>
Department Standards	<i>Laboratory services are provided in accordance with applicable federal and state regulatory requirements and accreditation standards.</i>
Reference Laboratory	<i>Froedtert South Laboratory refers testing that is not performed onsite to Wisconsin Diagnostics Laboratory as its primary reference laboratory. Certain testing may be referred to other qualified reference laboratories based on testing availability, methodology, or other testing requirements.</i>

Patients should contact their healthcare provider or the Laboratory Services department for questions regarding specific tests, specimen collection requirements, or expected turnaround times. Test availability may vary by location.
